

## Market studio

### One access

With our browser-based market studio you get direct access to database of empirica regio.

### All data

You have 24|7 access to over 1,800 indicators in more than 10,000 municipalities, 400 districts and numerous comparative regions.

### No research

With just a few clicks you can easily create maps, plots, tables or market reports – no need for time-consuming research anymore.

### Individual modules

Naturally, we would also be happy to set up your own area, which is optimally tailored to your individual requirements.

## Licenses

### Annual licenses

Usage of the empirica regio market studio is valid for one year, all updates are included in this period.

### Usage

You have 24|7 access to all time series in the market studio and can download all data as Excel files and use all plots, maps and reports instantly.

### Regionalization

You can license either the states of your choice or full access – each with access to all regions within the states.

### Test license

If required, we will be happy to provide you with a non-binding and free test licence to access the market studio of empirica regio.

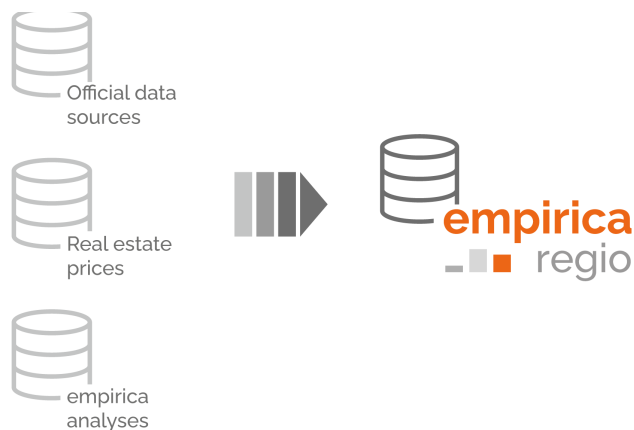

## Regional Data & Real estate expertise

### Real estate data

Various real estate data from official statistics and real estate price data are incorporated into the database of empirica regio.

### Analyses & forecasts

We supplement data with our own analyses and calculations as well as indicators and forecasts from empirica ag.

### Quality standards

All data is checked by us for plausibility and consistency. In the retrievable metadata, the respective database, data set descriptions and further information are given.

### Pooled real estate market expertise

empirica regio combines research, processing, analysis and provision of framework data for the real estate industry. We combine modern information systems, quality and know-how.
